I. Introduction

Nebraska Methodist Hospital (NMH), an affiliate of Nebraska Methodist Health System (MHS) has cared for Nebraska's families, and is committed to superior service and a deep understanding of patient care, creating better care and better outcomes for our communities.

Mission Statement

Improving the health of our communities by the way we care, educate and innovate.

Vision Statement

We will be the preferred integrated health system in the region.

Values in Our Workplace – Cultural Competence

At Nebraska Methodist Hospital, all employees will behave in a way that is consistent with our core values. We will hold each other and ourselves mutually accountable for our actions. Demonstrating our values in the workplace means that we will respect a wide range of people both like and unlike ourselves. Our similarities and differences may include these characteristics: race, gender, class, native language, ethnic origin, physical ability, age, religion, sexual orientation, professional experience, personal preferences and work style. We value our diversity. These similarities and differences will be affirmed and respected as we serve all of our customers, our patients, families and coworkers.

Core Values

Patient Centered

We are patient/customer-centered, patient/customer-driven. Our patients are our first priorities. We listen, understand their needs and strive to exceed their expectations.

Respect

We honor and respect the dignity of all. We say what we mean and mean what we say. We require fair, honest and ethical behavior in every activity and under all circumstances.

Excellence

We strive for excellence and push beyond. We strive for the highest standards and push beyond. We continuously improve performance through knowledge, experience, innovation and risk-taking.

Teamwork

We work as one. People are our most important resource. We demonstrate respect and concern for everyone, value each individual as an equal team member and support professional growth and autonomy.

Community Service

We are dedicated to serving our community. We strive to achieve a healthy balance between enhancing the welfare of our community and sustaining our economic growth.

II. Our Commitment

From the day the original Nebraska Methodist Hospital was chartered back in 1891, service and commitment to patient safety and our communities has been the top priority. Financial assistance, health education, outreach to under-resourced populations – these and other community benefit activities have always been central to our mission. Our goal has always been to address and improve the overall health of the community.

Our community benefit programs are strategically focused to accomplish the following objectives:

- Improve access to health care services
- Enhance the health of the community
- Advance medical or health care knowledge
- Relieve or reduce the burden of government or other community efforts

III. 2021 Community Health Needs Assessment Summary

Nebraska Methodist Hospital conducted a needs assessment with numerous community partners including Douglas County Health Department, Pottawattamie County Public Health Department, Sarpy/Cass County Department of Health, Nebraska Medicine/University of Nebraska Medical Center, CHI Health, along with other community nonprofit organizations and federally-qualified health centers.

The assessment was conducted by Professional Research Consultants, Inc. (PRC). PRC is a nationally-recognized health care consulting firm with extensive experience conducting Community Health Needs Assessments such as this in hundreds of communities across the United States since 1994.

Methodology

To ensure the best representation of the population surveyed, a telephone interview methodology — one that incorporates both landline and cell phone interviews — was employed. The primary advantages of telephone interviewing are timeliness, efficiency, and random-selection capabilities.

The sample design used for this effort consisted of a stratified random sample of 2,854 individuals aged 18 and older in the Metro Area, including 1,451 in Douglas County (NE); 702 in Sarpy County (NE); 200 in Cass County (NE); and 501 in Pottawattamie County (IA). Once the interviews were completed, these were weighted in proportion to the actual population distribution so as to appropriately represent the Metro Area as a whole. All administration of the surveys, data collection, and data analysis was conducted by PRC.

To solicit input from key informants, those individuals who have a broad interest in the health of the community, an Online Key Informant Survey was also implemented as part of this process. This included physicians, public health representatives, other health professionals, social service providers, business leaders and a variety of other community leaders. Potential participants were chosen because of their ability to identify primary concerns of the populations with whom they work, as well as of the community overall. Key informants were contacted by email, introducing the purpose of the survey

and providing a link to take the survey online. In all 150 community stakeholders took part in the Online Key Informant Survey.

The following are the areas of opportunity identified through this assessment:

- Access to Healthcare Services
- Cancer
- Diabetes
- Heart Disease & Stroke
- Infant Health & Family Planning
- Injury & Violence
- Mental Health
- Nutrition, Physical Activity & Weight
- Oral Health
- Potentially Disabling Diseases
- Respiratory Diseases
- Sexual Health
- Social Determinants of Health
- Substance Abuse
- Tobacco Use

The full Community Health Needs Assessment along with this FY 2021 – FY 2023 Implementation Strategy can be accessed through Methodist Health System’s Community Benefits website: <https://bestcare.org/about/community-benefits/our-plan>.

IV. Implementation Strategy Plan

Findings from Nebraska Methodist Hospital’s Community Health Needs Assessment were initially reviewed by the Board of Directors in October of 2021. Strategies, goals and methods of evaluation were developed to create the FY 2021 – FY 2023 Implementation Strategy For Needs Identified in the Community Health Needs Assessment.

This strategy lists some of the local area community partners of which NMH will collaborate on opportunities that would be consistent with their expertise. As our work progresses, we will identify and partner with new organizations and key individuals as necessary.

This document clearly identifies opportunities where NMH lacks internal competencies to make a meaningful impact. NMH will continually monitor these opportunities and collaborate with community organizations that are addressing these needs and as funding and/or expertise are made available, NMH will respond accordingly.

Strategy Execution and Anticipated Impact

Evaluation of impact will be ongoing, as well as measured by a subsequent CHNA conducted at the end of this planning horizon. Impact will be compared to current results and influenced by the Healthy People 2030 guidelines and recommendations, among other locally- and nationally-recognized benchmarks.

Prioritization

The Board of Directors of Methodist Hospital has determined that the following opportunities identified in the 2021 CHNA should be addressed through these strategies and approved the 2021 – 2023 Implementation Strategy Plan on February 24, 2022.

- **Priority I** – *NMH has significant expertise to improve these health needs in the community: “Leaders in the Community”*
- **Priority II** – *NMH has limited expertise to improve these health needs in the community, and will defer to other organizations but collaborate where and when appropriate: “Partners in the Community”*
- **Priority III** – *NMH has minimal expertise to help increase health rates in the community. NMH does not intend to specifically address these opportunities, primarily due to lack of expertise and to the involvement of other organizations. NMH will continue to collaborate with other community organizations currently addressing these opportunities: “Participants in the Community”*

Priority I:

- Access to Healthcare Services
- Cancer
- Heart Disease & Stroke

Priority II:

- Diabetes
- Injury & Violence
- Mental Health
- Nutrition, Physical Activity & Weight
- Respiratory Disease
- Sexual Health
- Social Determinants of Health

Priority III:

- Infant Health & Family Planning
- Oral Health
- Potentially Disabling Conditions
- Substance Abuse
- Tobacco Use

Identified as Priority I: “Leaders in the Community”

Identified Need:	Description:	Strategies:	Method of Evaluation:
<p>Access to Health Services</p>	<p>6.9% of Omaha Metro Area residents reported having One or More ER Visits in the Past Year</p>	<ul style="list-style-type: none"> • With MPC, improve, expand and support access to health care services through primary care, urgent care, extended hours, and e-visits. • Utilize MPC health coaches to engage patients across our communities. • Expand services at the Methodist Community Health Clinic (MCHC) in a geographic area of need in Omaha. • Partner with the <u>Healing Gift Free Clinic</u>, <u>Lutheran Family Services</u> and <u>Open Door Mission</u> to provide screening and educational events at Kountze Commons. • Collaborate with <u>other area health systems</u>, <u>Douglas County Health Department</u>, <u>Charles Drew Health Center</u>, and <u>One World Community Health Centers</u> to enhance access to health services. • Collaborate with existing & new partners to bring the Mobile Mammography and Mobile Diabetes Units to our communities. • Provide all eligible patients a financial assistance program which is designed to serve those in financial need with fairness, consistency and compassion. • Provide clinical rotations, internships and experiences for medical and allied health students across Iowa education institutions. 	<p>Reduce the % of residents reporting having One or More ER Visits in the Past Year</p> <p><u>Comparison:</u> 2018: 6.4%</p>

<p>Cancer</p>	<p>Cancer Age-Adjusted Mortality for the Metro Area (per 100,000 population) is 155.5* compared to the National Average</p> <p><i>*2017-2019 average annual data</i></p>	<ul style="list-style-type: none"> • Offer multidisciplinary care and an array of services for cancer patients at the Methodist Estabrook Cancer Center (MECC). • Enhance and grow cancer screenings and education with a focus on early identification of lung, head & neck, colorectal, skin, and breast (Mobile Mammography Unit) cancers. • Provide screening and reminders for different types of cancers and behavioral risk education at community events. • Increase telehealth options for patients and providers to connect to MECC services. • Identify lung cancer earlier through increased CT screenings of high-risk patients and the utilization of an incidental nodule program and establish more advanced careplans involving interdisciplinary teams across the Health System. • Increase HPV vaccination rates and awareness of its association to cancer with the <u>American Cancer Society's</u> grant programs and education initiatives. • Offer genetic testing and counseling in partnership with Gene Matters. • Partner with the <u>American Cancer Society's Hope Lodge</u> and <u>other local hotels</u> to provide overnight stays for out-of-town cancer patients during treatment. • Partner with the Nebraska Coalition on Cancer, The American Cancer Society, Susan G. Komen Great Plains, and Great Plains Colon Cancer Task Force on education, screening and prevention programs across the metro. 	<p>Reduce the Cancer Age-Adjusted Death Rate</p> <p><u>Comparison:</u> National Average: 149.3*</p>
----------------------	--	--	---

Heart Disease & Stroke	<p>6.0% of Omaha Metro Area residents report having Heart Disease</p> <p>3.2% of Omaha Metro Area residents report having had a stroke</p>	<ul style="list-style-type: none"> • Offer cardiac & vascular services in Methodist Hospital’s certified chest pain and stroke centers. This includes a catheterization Lab, heart failure program, cardiac rehab and inpatient care. • Utilize high risk health coaches in MPC cardiology clinics to engage patients, coordinate care and improve outcomes for heart disease and stroke patients. • Innovate new procedures such as Watchman, TAVR, Mitraclip and Convergence to improve outcomes and reduce complications of heart disease. • Participate in the <u>Statewide STEMI Task Force</u> to enhance systems of care and care delivery. • Participate in <u>Mission: Lifeline</u> to share best practices, provide education and increase public awareness of the role of EMS in the care of heart attack victims. Build a sustainable framework ensuring high quality care in a timely manner. • Promote “return to screening” and provide education at community events about prevention, detection, and risk factors for heart attack, stroke and high blood pressure. • In collaboration with the American Heart Association and “Go Red for Women”, increase awareness of cardiovascular disease in women. 	<p>Decrease the % of residents reporting having Heart Disease and Stroke</p> <p><u>Comparison:</u> Heart Disease 2018: 4.7%</p> <p>Stroke 2018: 2.4%</p>
-----------------------------------	--	---	--

Identified as Priority II: “Partners in the Community”

Identified Need:	Description:	Strategies:	Method of Evaluation:
Diabetes	12.4% of Omaha Metro Area residents report having diabetes	<ul style="list-style-type: none"> • With MPC health coaches and dieticians, follow-up, monitor, address any barriers, and improve outcomes of diabetic patients. • Increase access to care and education for diabetic patients through MPC sites as well as telehealth and mobile capabilities. • Provide screenings, diabetic education, and referrals as necessary during community outreach events. • With the Methodist Hospital Foundation, purchase 30-day insulin and diabetic care supplies for patients identified by social workers who need assistance. 	Decrease the % of residents reporting having Diabetes <u>Comparison:</u> 2018: 11.2%
Injury and Violence	40.4% of the Key Informants perceive that Injury & Violence is a Major Problem in our community	<ul style="list-style-type: none"> • Partner with <u>law enforcement</u> to offer the Sexual Assault Nurse Examiner/Sexual Assault Response Team (SANE/SART) for treatment, evidence collection, and follow-up referrals for survivors. This program has been established in the metro-area as best practice. • Advocate for state and local policies which contribute to stopping sexual assault and sex trafficking. 	Decrease the % of key informants perceiving that Injury & Violence is a major problem in our community. <u>Comparison:</u> 2018: 45.1%

Mental Health	85.1% of the Key Informants perceive Mental Health as a major problem in the Omaha Metro Area	<ul style="list-style-type: none"> • Grow the impact of the Methodist Community Counseling Program, in partnership with <u>Omaha Public Schools</u>. • Increase access to behavioral health services at MWH and NMH by enhancing the relationship with MFH providers. • Increase telehealth services and platforms to reduce access barriers. • Partner with <u>Lutheran Family Services</u>, Methodist Hospital Foundation, and <u>Kountze Commons</u> partners to integrate behavioral health services into primary care. • Utilize NMH’s psycho-social distress screening tool in MECC creating referrals to social work, dieticians and behavioral health. • Partner with <u>Heartland Family Services</u> and other health systems on the multiyear \$500,000 grant called the BUILD Health Challenge to address specific mental health & self-sufficiency needs in North Omaha. 	Decrease the % of key informants reporting Mental Health as a major problem <u>Comparison:</u> 2018: 79.1%
Nutrition, Physical Activity and Weight Status	71.9% of Metro-area residents report being overweight (BMI 25+)	<ul style="list-style-type: none"> • Increase community outreach and include information on diet, nutrition, exercise and weight management. • Provide screened individuals, with BMI greater than 25, education, resources, and referrals for intervention. • Work with community partners to increase healthy food alternatives in the area through community gardens and food pantries. • Partner with schools to provide healthy cooking lessons provided by MHS food services. • Support the Share Our Table initiative led by The Wellbeing Partners to improve healthy food access. • Partner with Nebraska Methodist College on the Equipment Loan Program for seniors needing assistive devices. 	Decrease the % of residents reporting being Overweight <u>Comparison:</u> 2018: 70.7%

Respiratory Diseases	<p>Age-Adjusted Death Rates for Chronic Lung and Respiratory Diseases (CLRD) and Pneumonia/Influenza are higher than the National Averages at 48.7* and 14.8*, respectively (per 100,000 population)</p> <p><i>*2017 – 2019 data, most recent available</i></p>	<ul style="list-style-type: none"> • Participate with community organizations currently addressing this need. • Incorporate high risk health coaches in MPC Pulmonology clinics to coordinate care. • Provide annual influenza vaccines to community partners. • Offer pulmonology and pulmonary rehabilitative services. 	<p>Decrease the Age-Adjusted Death Rate for Respiratory Diseases</p> <p><u>Comparison:</u> CLRD: 39.6</p> <p>Pneumonia and Influenza: 13.8</p>
Sexual Health	<p>Sexually Transmitted Diseases (Gonorrhea and Chlamydia) are notably higher than the national incidence rate, at 245.4* and 562.8*, respectively per 100,000 in the Metro Area</p> <p><i>*2018, Most recent data available</i></p>	<ul style="list-style-type: none"> • Promote healthy sexual behaviors, strengthen community awareness, and increase access to quality services to prevent sexually transmitted diseases (STDs). • Partner with Douglas County Health Department and participate in their screening, testing and treating efforts. • Through SANE/SART and the Methodist Community Health Clinic, offer unique STD testing, treatment, and follow-up to survivors. 	<p>Reduce incidence of Sexually Transmitted Diseases</p> <p><u>Comparison:</u> Gonorrhea 2014⁺: 138.7</p> <p>Chlamydia 2014⁺: 535.1</p> <p><i>*Most recent comparison data available</i></p>

Social Determinants of Health	Reduce overall Vizient Vulnerability Index score across all SDOH areas	<ul style="list-style-type: none"> • Partner with Vizient to identify gaps and develop strategies which address SDOH and health equity. • Find Help (aka Aunt Bertha or Community Relay) and UniteUS social referral platforms are being tested & piloted to address referral gaps. • Incorporate High Risk Health Coaches and CareNavigators to identify SDOH issues and find resources, coordinate care, and improve outcomes. • Partner with The Wellbeing Partners, CHI Health and Nebraska Medicine, and local shelters to offer a medical respite/supportive housing facility for the medically-complex homeless community members. • Continue to participate and leverage NMH’s strengths and resources to support the BUILD Health Challenge (awarded in fall 2019) to address varying social determinants of health. 	Reduce overall Vizient Vulnerability Index <u>Comparison:</u> 2021: -0.141
--------------------------------------	--	--	--

Identified as Priority III: “Participants in the Community”

Identified Need:	Description:	Strategies:	Method of Evaluation:
Infant Health & Family Planning	Metro area average annual infant mortality rate is 5.8* (per 1,000 live births) and higher than the National Average <i>*2017 – 2019 data</i>	<ul style="list-style-type: none"> Participate with Methodist Women’s Hospital to address perinatal issues for mother and baby. 	Reduce infant mortality <u>Comparison:</u> National Average: 5.6*
Oral Health	73.3% of Key Informants perceived oral health as a Major or Moderate Problem across the metro area	<ul style="list-style-type: none"> Offer prevention-based strategies and screenings to the broader community for HPV, a root cause of oropharyngeal cancers. Participate with <u>Nebraska Urban Indian Healthcare Coalition and Fred LeRoy Health & Wellness Center</u> to offer free screenings. 	Decrease the % of key informants reporting Oral Health as a major problem <u>Comparison:</u> 2018: 68%
Potentially Disabling Conditions	24.8% of metro adults report being limited in activities in some way due to a physical, mental or emotional problem	<ul style="list-style-type: none"> Collaborate with the <u>Alzheimer’s Association</u> and <u>memory care providers</u> in the community. Increase preventive care screenings and education. Continue to enhance and improve fall prevention strategies for hospital patients and ensure spaces are safe. 	Decrease the % of residents reporting limited activity <u>Comparison:</u> 2018: 20.2%

Substance Abuse	50.0% of the Key informants perceive substance abuse as a Major Problem in our community.	<ul style="list-style-type: none"> • Enhance the opioid stewardship program throughout the hospital, physician offices, and pharmacies. • Participate with community organizations currently addressing this need (<u>Douglas County Community Mental Health Clinic, and Lutheran Family Services</u>). 	<p>Decrease the % of key informants perceiving that Substance Abuse is a major problem in our community.</p> <p><u>Comparison:</u> 2018: 57.9</p>
Tobacco Use	14.2% of metro area adults report being a current smoker	<ul style="list-style-type: none"> • Participate with <u>Metro Omaha Tobacco Action Coalition (MOTAC)</u> to support community-wide education and improvements. • Provide the No Tobacco Challenge across Methodist and offer to external partners. • Provide Nicotine Replacement Therapy. • Offer and promote the <u>Great American Smokeout</u>. 	<p>Reduce % of residents reporting as current smokers</p> <p><u>Comparison:</u> 2018: 11.7%</p>
